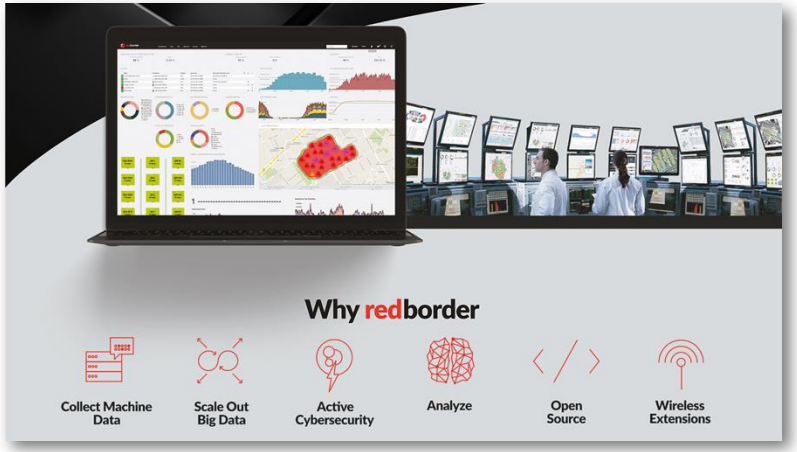
redborder
COLLECT, ANALYZE, ACT.

What is redborder?

Redborder - Product Overview and Demonstration

**The ultimate Network Traffic Analysis (NTA)
and Active Cybersecurity Platform
based on Big Data and Open Source**



Supporting Cybersecurity ...

Intrusion Detection and Prevention
Behavior Monitoring & Anomaly Detection
Attack Investigation & Recovery
Security Incident Response
Security Policy Management
Wired & Wireless Monitoring (multivendor)

one rule cybersecurity

Traffic (NTA)

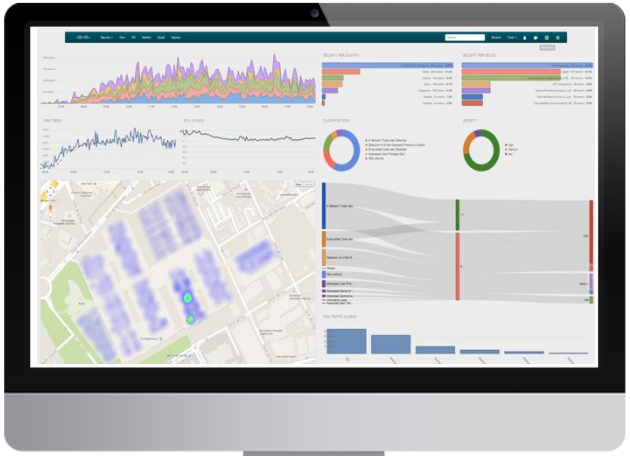
Netflow v5, v9, IPFIX , sFlow collectors
DPI Analysis
Geolocation
Wired & Wireless Networks

Intrusion (IDS/IPS)

Centralized Management
Signature Policies, Anomalies, Attacks
Reputation & Geoblocking
Custom Rules
LAN Bypass (reborder appliances)
Hierarchical Policies
Multiple Feeds

Wifi Security

Integrations with Vendor APIs
Indoor Localization
Location Analytics



redborder

Anomaly-AI Engine

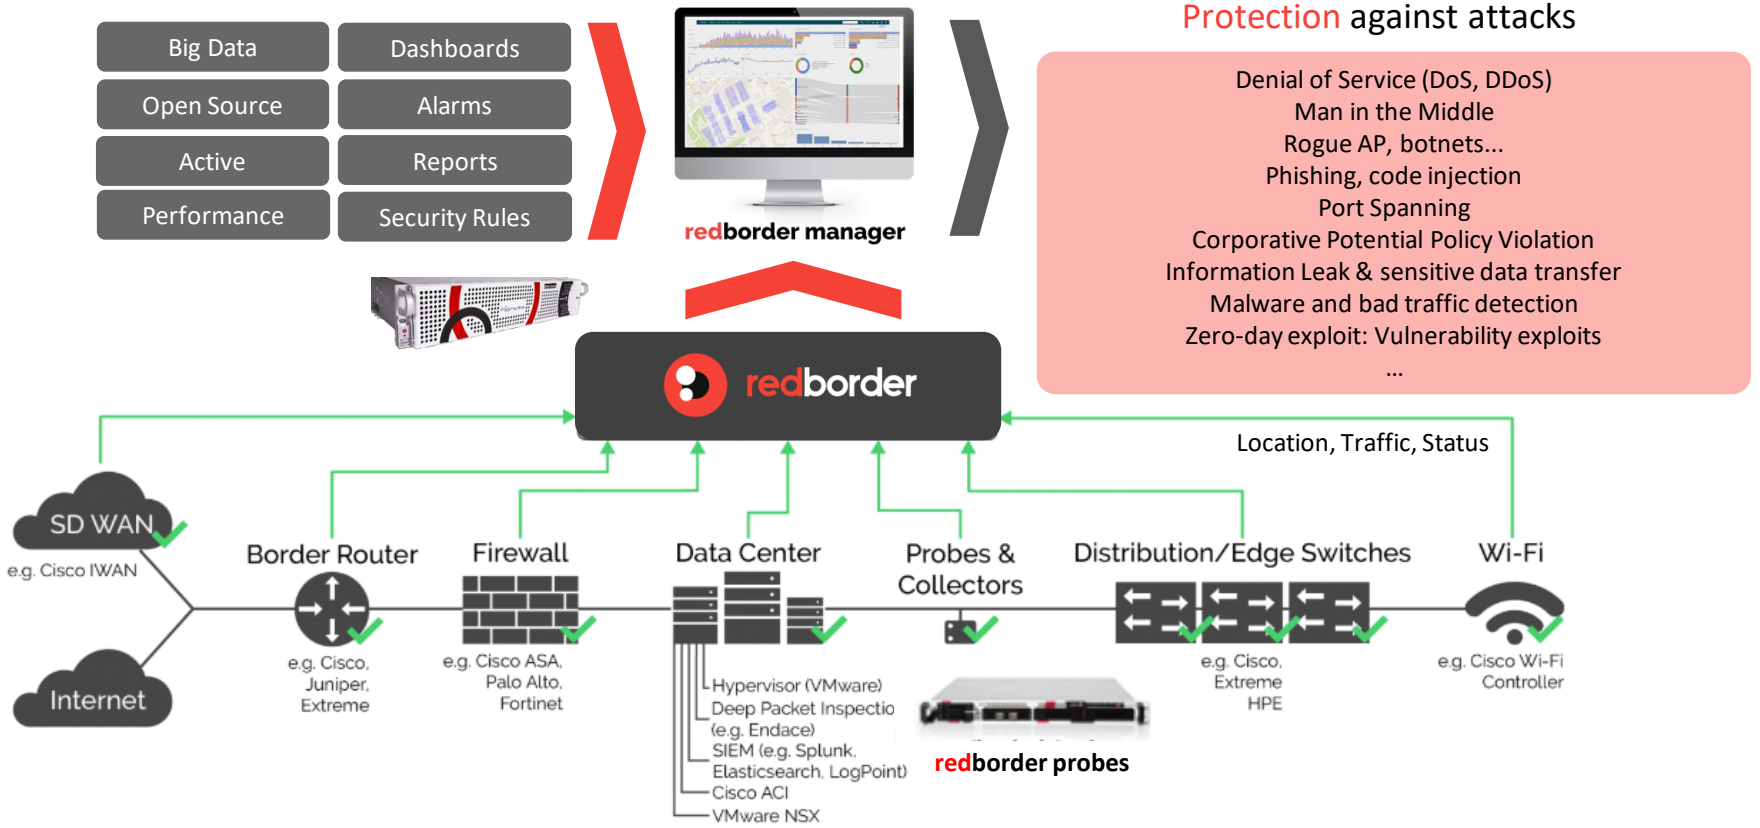
Analysis combining any rule
Detect Anomalies and Behaviours

Infrastructure Monitor

Monitoring Deployed Hardware through SNMP.

Vault (SIEM)

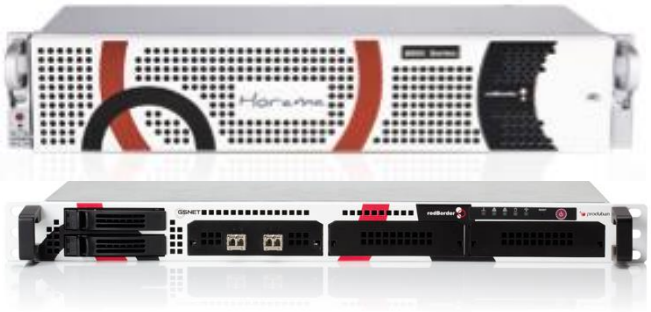
Log Parsing, Normalization & Storage
Behaviour analysys
Integrating HW and Software Assets



Big Data
Dashboards
Open Source
Alarms
Active
Reports
Performance
Security Rules
redborder manager
redborder
Protection against attacks
Denial of Service (DoS, DDoS)
Man in the Middle
Rogue AP, botnets...
Phishing, code injection
Port Spanning
Corporative Potential Policy Violation
Information Leak & sensitive data transfer
Malware and bad traffic detection
Zero-day exploit: Vulnerability exploits
...
Location, Traffic, Status
SD WAN
e.g. Cisco IWAN
Internet
Border Router
e.g. Cisco, Juniper, Extreme
Firewall
e.g. Cisco ASA, Palo Alto, Fortinet
Data Center
Hypervisor (VMware)
Deep Packet Inspectio
(e.g. Endace)
SIEM (e.g. Splunk, Elasticsearch, LogPoint)
Cisco ACI
VMware NSX
Probes & Collectors
redborder probes
Distribution/Edge Switches
e.g. Cisco, Extreme HPE
Wi-Fi
e.g. Cisco Wi-Fi Controller

DELIVERY OPTIONS

- redborder Horama-manager
- redborder Flow
- redborder Intrusion Hardware Appliance
- redborder Probes



DEPLOYMENT OPTIONS

- Hardware Appliance
- Virtual Machine (Amazon, VMWare, baremetal, ...)
- On-Premise or Cloud

redborder Live

PROMO 2019

Cybersecurity as a Service

EXPERIENCE

Experience **redborder live** with data provided by us. Test out the platform and see all posibilities working.

LIVE

Setup your own sensors and send data to **redborder live**. You need to install a proxy locally.

VISUALIZER

Visualize the traffic of your own routers in the cloud. You need to install a proxy locally.

Sign up and enter code

30RBMWC

to enjoy

30 additional days of FREE service in the cloud*

* Valid until 31 / May / 2019
